第二节 书面表达(25分) (One possible version)

Lei Feng's Spirit Shines Forever

It's the 60thanniversary of learning from Lei Feng. The spirit of Lei Feng, which is of great significance to building a harmonious society, is the inheritance of China's excellent traditional culture, embodying socialist core values.

Our school has carried out colorful activities, educating students to learn from Lei Feng. On March 5th a speech contest was held, aimed to strengthen students' awareness of following Lei Feng's example. Later each class had a theme class meeting, encouraging students to do good deeds. We actively responded with various hands-on actions, such as collecting street garbage, helping the old cross the street, and delivering love and care to those in need, etc.

It's our responsibility to carry forward Lei Feng's spirit. Let's make joint efforts, passing it down generation by generation. (120 words)
