71. addiction 72. A 73. their 74. closer 75. glued

76. what 77. in 78. has been tied 79. terribly 80. to keep

书面表达范文A possible version

Dear classmates,

To arouse our awareness of protecting the environment and increase the knowledge concerned, our school will hold “the Environmental Protection Festival”, which is expected to last a week.

During the festival, various activities will be arranged. First and foremost, the visit to some chemical factories will definitely let us realize how much pollution we are making and how urgent situation the earth is in. Then come the lectures given by experts in the hall concerning water conservation, renewable energy, greenhouse effect and so on, which can broaden our horizons and add to our knowledge of the environmental protection undoubtedly. Last but not least, an environmental knowledge competition will allow us to apply what we have learned to practice. What is worth mentioning is that 10 Stars of Environmental Protection will be recommended and awarded at the end of the festival.

Only with joint efforts can our festival go smoothly. Join us and take action right now! Your contributions count!
