75. One possible answer: I think she is an ambitious and hard-working woman. Because she dreamed of changing the world when she was young and finally realized it with perseverance.

六. 书面表达

Dear fellow students,

I'm Li Hua, chairman of the Student Union. With the activity 'Sports Week' enjoying high popularity, many of us have benefited a lot from doing sport. However, some students don't show their interest in it. To involve more students in sports activities, I think it's vital to make it clear why doing sport is essential for us.

When it comes to the reason why some students complain about doing sport, it can be widely heard that exercising takes up too much study time. But the truth is that instead of wasting our time, proper exercise can make us energetic, enabling us to be

well-prepared for our school assignment. Besides, taking exercise also strengthens our mind, making it possible for us to overcome the difficulties we face in our daily life more easily.

Various sports are suitable for us to choose, such as football, swimming and so on. Try one as you like.

Finally, I'd like to appeal to all of you to make exercising a life-long habit. Wish you a good experience in the Sports Week.

Student Union
