第一部分 听力(共两节,满分30分)

做题时,先将答案标在试卷上。录音内容结束后,你将有两分钟的时间将试卷上的答案转涂到答题卡上。

第一节(共5小题;每小题1.5分,满分7.5分)

听下面5段对话。每段对话后有一个小题,从题中所给的A、B、C三个选项中选出最佳选项。听完每段对话后,你都有10秒钟的时间来回答有关小题和阅读下一小题。每段对话仅读一遍。

1. What are the speakers talking about?
A. A wonderful film. B. A special journey. C. An unexpected piece of news.
2. What will the woman do?
A. Go to hospital. B. Visit a fashion show. C. Stay at home.
3. Who is over there?
A. Tom. B. Henry. C. Alice.
4. When will the two speakers meet?
A. At 10:30 pm. B. At 11:00 pm. C. Before 9:30 pm.
5. What happened to the woman last weekend?
A. She had a terrible trip. B. Dirty water went into her kitchen.
C. She quarreled with her neighbor.

第二节(共15小题;每小题1.5分,满分22.5分)

听下面5段对话或独白。每段对话或独白后有几个小题,从题中所给的A、B、C三个选项中选出最佳选项。听每段对话或独白前,你将有时间阅读各个小题,每小题5秒钟;听完后,各小题将给出5秒钟的作答时间。每段对话或独白读两遍。

听第6段材料,回答第6、7题。

6. Who will go to the Big Boogie?
A. Tom. B. Mark. C. Peter.
7. What will the woman do next?
A. Finish an essay. B. Go bird-watching. C. Make phone calls.

第1页,共12页

听第 7 段材料,回答第 8 至 10 题。

8. Why is the apartment cheap?

- A. It has limited space. B. It doesn't have a good view.
C. It's far from public transportation.

9. What is included in the rental fee?

- A. Telephone service. B. Electricity. C. Furniture.

10. What does the woman want to do next?

- A. Clean the house. B. Sign the contract. C. Look around first.

听第 8 段材料,回答第 11 至 13 题。

11. Why did the woman leave Los Angeles?

- A. To get a job. B. To go to college. C. To enrich her life.

12. What is the woman's next plan?

- A. Move to Chicago one day. B. Go to Shanghai in several days.
C. Live in New York for a year.

13. In which city does the man want to settle down?

- A. New York. B. Los Angeles. C. Chicago.

听第 9 段材料,回答第 14 至 16 题。

14. What is the man doing?

- A. Doing his homework. B. Watching TV. C. Making a telephone call.

15. What does the man advise the woman to do?

- A. Have a rest. B. Find a quiet place. C. Go to another room.

16. When will the woman probably finish her homework?

- A. Later at night. B. The day after tomorrow. C. Tomorrow morning.

听第 10 段材料,回答第 17 至 20 题。

17. Where was the first Book Festival held?

- A. In a tent. B. In a bookshop. C. In a museum.

18. When did the Book Festival start to be held every year?

- A. In 1983. B. In 1997. C. In 2004.

19. What is the atmosphere of the Book Festival like?

- A. Academic. B. Noisy. C. Pleasant.

20. How long does the Book Festival last every year?

- A. Three days. B. Three weeks. C. One month.

第二部分 阅读(共两节,满分 40 分)

第一节(共 15 小题;每小题 2 分,满分 30 分)

阅读下列短文,从每题所给的 A、B、C 和 D 四个选项中,选出最佳选项。

A

Uncommon Baby Names that You May Have Never Heard of

Now that there are more than 7 billion people in the world, parents have never had so much pressure to choose a unique name.

Tanwen

Tanwen is a Welsh name typically assigned to girls. Sources identify the meaning of the name as either “white fire” or “holy fire”. This name may be the most uncommon one that we’ve heard so far. There are no known famous people who have been given the name Tanwen. If you’re looking for a baby name that virtually no one else has, this one may be the winner.

Venetia

Venetia is a female name that means Venice, Italy. Similar to the name Florence, its significance is coming from the land to which it refers. Strangely, most of the famous figures with the name were not Italian but English. In America, the name was known by the actress Venetia Stevenson in the 1950s, though it didn’t quite catch on.

Jessamy

Jessamy is a Persian name that means jasmine(茉莉) flower. It is an ideal name for those who love the name Jasmine but are looking for something unique. The name is also the title of a children’s story by Barbara Sleigh. Being that the story came out in 1967 and was named after its protagonist, it made sense that there was a spike(剧增) in the name’s popularity in the 1970s.

Roone

Roone is an Irish name that means red-headed. The only Roone to appear in pop culture was the American sports and news broadcasting executive Roone Arledge. He was active from the late 1960s to the 1980s and he did have red hair, though it turned white towards the end of his career.

第 3 页,共 12 页

21. What is special about the name “Venetia” ?
- A. It is related to fire.
 - B. It seldom appears in Italy.
 - C. Some famous British figures own the name.
 - D. It is not used by famous persons.
22. What do we know about Rooney Arledge?
- A. He was famous for his white hair.
 - B. His name matched his appearance.
 - C. He was a sportsman with great fame.
 - D. He had many people named after him.
23. Which of the following reminds us of a flower?
- A. Rooney. B. Venetia. C. Tanwen. D. Jessamy.

B

On October 23rd, race cars at the Indianapolis Motor Speedway moved around the track at high speeds—with no one driving them. The race was an international contest for the fastest self-driving car, with a \$1 million prize.

Many big companies are working to develop self-driving cars. These companies have huge teams of highly trained professionals. They’ve spent years developing and testing their cars, sensors and software. That wasn’t true for the nine teams of college students that took part. Many teams were made up of students from different universities, different countries, and even different continents. Most teams only had their cars for a few months. To keep things fair, each team was given exactly the same kind of car.

Originally, the cars were meant to race together. That turned out to be too difficult. It was hard enough to go around the curves of the race track without spinning out. Instead, each car raced by itself, doing several laps(圈). After a few warm-up laps, the cars did two speed laps, as fast as they could go. The teams were judged on the average speed of those two speed laps. Only four teams made it past the first round, which also included an obstacle course.

In the final round, the car of one team, PoliMOVE, reached 253 kph on the straight

section of the track as it was warming up, but later wound up hitting a wall. Another team, MIT-PITT-RW, also hit a wall. The EuroRacing team had a great first lap speed of 224 kph. But because of an error in their program, the car stopped early and didn't drive its second speed lap. TUM Autonomous Motorsport, a team from the Technical University of Munich, won the \$1 million grand prize with its two-lap average speed of 218.78 kph.

But all of the teams gained a huge amount of knowledge as a result of the competition. The race's organizer hopes that the progress made by the students will help improve on-the-road safety for all self-driving cars.

24. Why was racing together cancelled?

- A. The space was narrow.
- B. It proved to be tough.
- C. It challenged safety.
- D. It influenced speed.

25. Which team made a mistake in their program?

- A. PoliMOVE.
- B. MIT-PITT-RW.
- C. EuroRacing.
- D. TUM Autonomous Motorsport.

26. What is the purpose of this international contest?

- A. To test the performance of those self-driving cars.
- B. To win the \$1 million bonus offered by the organizer.
- C. To prove which team's car moves the fastest.
- D. To improve on-the-road safety for self-driving motors.

27. Which is a suitable title for the text?

- A. Self-driving Car Races Become Popular
- B. Competitions Attract Students to Participate
- C. Big Companies Work to Develop Self-driving Cars
- D. Students Hit High Speeds in Self-driving Car Races

C

From one "spaceman" to another, William Shatner of *Star Trek* has recorded a video message for the six astronauts living 240 miles above Earth on the International Space Station.

“I wish you really good luck, good health, get some good work done, and we look forward to your coming back,” the actor known for playing Capt. James T. Kirk in the original *Star Trek* television series said in the video.

Shatner released an album of space-themed songs in late 2011 called *Seeking Major Tom*, which features new covers of classics from David Bowie, Queen, Pink Floyd and others. Shatner sings, along with guest artists such as Sheryl Crow, Lyle Lovett, Peter Frampton and others.

Apparently, the current space station crew of two NASA astronauts, three Russian cosmonauts, and a European astronaut from the Netherlands enjoy listening to Shatner’s album in their home away from home.

“Did you know the crew of the International Space Station listened to my *Seeking Major Tom* album?” Shatner wrote on the Internet Sunday.

To express his enthusiasm about his new fans, Shatner recorded a greeting for the real-life spacemen. “Six months in space is a long time, and if you listen to my record, the time will pass by quickly,” Shatner says in the message. “Not quickly enough, but you’ve got so much to do up there.”

Commander Dan Burbank is leading the current station mission, called Expedition 30. The astronauts serve about five months in space before being relieved by replacements from among the five partner space agencies: NASA, the Russian Federal Space Agency, the Canadian Space Agency, the European Space Agency, and the Japan Aerospace Exploration Agency (JAXA).

Burbank and two of the other current crew, Anton Shkaplerov and Anatoly Ivanishin of Russia, are due to undock from the space station this week and fly back to Earth Friday aboard a Russian Soyuz space capsule.

28. Which statement best describes Shatner and the six astronauts?

- A. They are good friends. B. They have the same experience.
C. They are in the same occupation. D. One fake and six real astronauts.

29. What’s the album released in 2011 about?

- A. Film stars. B. Astronauts. C. The universe. D. Classic songs.

30. Why did Shatner record the greeting for the astronauts?
- A. To express his enthusiasm.
 - B. To praise them for their courage.
 - C. To learn about their life in space.
 - D. To encourage them to stick to their posts.
31. Which countries will have astronauts return to Earth soon?
- A. The US and Canada.
 - B. The US and Russia.
 - C. Canada and Russia.
 - D. Japan and Russia.

D

A growing number of US companies are now offering homes built with three-dimensional, or 3D printing technology. The companies say 3D printers can build homes faster, with a lot less money, and in a much more environment-friendly way than traditional building methods. They say the technology may also help solve America's shortage of affordable housing.

3D printers make physical objects based on 3D models created by a computer. The machines put down many thin layers of material—such as plastic, metal or concrete—on top of each other. Objects are created through this process, from the bottom up.

In recent years, 3D printers have mostly been used to create small, specialized items. This includes parts for automobiles, airplanes and medical devices. Many consumer products can also be printed, from clothes to foods.

Now, an increasing number of start-up companies are using 3D printing to build entire homes. Since the technology is still developing, not many have yet been built. However, the top companies plan to greatly increase production in the coming years.

The start-up company Icon, based in Austin, Texas, made news in 2018 by completing the first permitted 3D printed home in the US. At the time, it said the home had been built in just a day.

Since then, the company says it has been developing new technologies in robotics, software and manufacturing materials. It has designed its own 3D printer and says the robot-powered machine can create structures up to 185 square meters. The printing process uses a cement-based mixture that Icon says is stronger and less costly than traditional building materials.

To date, Icon has completed twenty-four 3D printed homes in the US and Mexico. Among them is a community of 3D printed homes in a poor neighborhood in Mexico. The company has also completed a series of structures for homeless people in Austin. And it says it plans to open America's first housing development of 3D printed homes this summer.

32. What is the printing process of the 3D printed objects?
- A. From the bottom up. B. From the top down.
C. Left to right. D. Right to left.
33. Which of the following is a trend in 3D printing?
- A. Producing clothes and foods. B. Creating small, specialized items.
C. Making parts for medical devices. D. Building complete houses.
34. What do we know about Icon in the last paragraph?
- A. It is a pioneer in 3D printing speed.
B. Its products benefit poor people.
C. It is developing many new technologies.
D. Its products will replace traditional houses.
35. Which of the following can be the best title for the text?
- A. Society Is in Great Need of Cheap Housing
B. Advanced Technology Changes the Way We Live
C. More US Companies Now Offer 3D Printed Homes
D. 3D Printed Houses Are the Only Option in the Future

第二节(共 5 小题;每小题 2 分, 满分 10 分)

根据短文内容,从短文后的选项选出能填入空白处的最佳选项。选项中有两项为多余选项。

Self-motivation requires effort, and here are several tips to help us stay motivated.

Setting goals. Our dreams are usually a bit vague(模糊的). 36 A long-term goal will be the ultimate dream. Short-term and medium-term goals will be the stages on the road to the final goal.

Money. Often our dreams will involve being successful in business and earning loads of money. Great. There is no harm in thinking big. However, while you are traveling the road to success, you will need to be financially secure. 37 It adds to your stress and

distracts you from your next goal. Before you start on your grand plan, try to make sure that you have an emergency fund set aside for those crises which will inevitably occur.

Avoid loans. Having some money behind you before you set off on your quest for success is good. Do not, however, try to fund your life with loans and credit cards. Avoid them if you can. 38

Have self-belief. When you are faced with a setback, don't just let it defeat you. Remember that you have already overcome other obstacles. 39 You can solve the problem facing you because you have done it before.

40 You can help keep yourself motivated by mixing with other motivated people. Their attitude is going to be optimistic and confident, and you can draw on that yourself. Negative thoughts can soon be gotten rid of if you're with people who are positive.

- A. Thus, we lack motivation.
- B. Keep company with positive folk.
- C. Believe in yourself and your abilities.
- D. Often we can learn more from our obstacles.
- E. Being aware of a shortage of money can destroy motivation.
- F. Worrying over debt is another way of destroying self-motivation.
- G. The first step to achieve a dream is to turn it into a series of goals.

第三部分 语言运用(共两节,满分30分)

第一节(共15小题;每小题1分,满分15分)

阅读下面短文,从每题所给的A、B、C、D四个选项中选出可以填入空白处的最佳选项。

Wanda Smith realized that teaching could be a very meaningful career in primary school. Since then, Smith 41 her ambition. However, when she graduated from high school, she tended her 42 mother and younger sisters, putting college 43 on hold. She married and then started to 44 her own family, taking a 45 at the local school.

She 46 each day at 6 am, working as a school bus monitor and a doorkeeper. It was her husband who kept 47 her to go back to school. At the age of 40, Wanda was 48 to university.

There were times when she could not deal with family, work and school. She often wanted

to quit, yet she 49. Wanda graduated from university in 2010, becoming a 50 and went to work at Brenham Elementary School.

Understanding how important 51 is, Wanda delivered learning packets to her students' homes during the COVID-19 pandemic(新冠肺炎疫情). She 52 wants her students to love school and to enjoy being there.

This teacher goes 53 instilling(灌输) the ABCs, trying to teach her students community, family and responsibility. Her will, inspiration and love 54 through every day with her students describing Wanda as their favorite teacher.

Wanda Smith has life 55 for all. Simply be the best you can be, never give up, and then your dreams will come true.

第二节(共 10 小题;每小题 1.5 分,满分 15 分)

阅读下面短文,在空白处填入 1 个适当的单词或括号内单词的正确形式。

Qinghai Lake is China's 56 (large) inland lake and saline lake(盐湖) with attractive natural beauty 57 uncountable species of birds. There are enough 58 (explore) in Qinghai Lake and it is never exaggerated(夸张的) to call it Flowers' Ocean, Birds' Paradise and Cyclists' Heaven.

Qinghai Lake stretches 105 km at 59 (long) and 63 km at width and has a surface area of over 4,500 square kilometers. At 3,200 m above the sea level and owning 60 average depth of 21 m, its waters are cold and 61 (salt). Qinghai Lake provides too much scenery to discover, 62 includes impressive lake landscape, mountain 63 (range) and grassland. There are several places to visit surrounding Qinghai Lake, including Erlangjian Scenic Area, Heimahe Town, Fairy Bay Area, etc.

Erlangjian Scenic Area 64 (lie) on the south shore of Qinghai Lake. It features the spectacular snow-capped mountains (including Tanggula Mountains and Kunlun Mountains) as well as the cultural mix of several Chinese minorities. 65 (walk) on the long pier (码头), you are able to admire a wonderful view of the snow peaks, calm waters, vast stretches of grasslands, large flocks of birds, etc.

第四部分 写作(共两节,满分 40 分)

第一节(满分 15 分)

假定你是李华,你校将举办中国诗歌朗读比赛(Chinese poetry reading competition),请你写一封电子邮件邀请外教 Bob 参加。内容包括:

1. 时间与地点;
2. 活动目的;
3. 期待回复并参与。

注意:

1. 写作词数应为 80 左右;
2. 请按如下格式在答题卡的相应位置作答。

Dear Bob,

Yours,
Li Hua

第二节(满分 25 分)

阅读下面材料,根据其内容和所给段落开头语续写两段,使之构成一篇完整的短文。

A few years ago, I was given a wallet. It was small, with only a single pocket for

cash, cards and coins. A zipper kept everything inside from falling out and a beautiful elephant was woven into its front panel. The wallet came to me all the way from France, gifted to me by a close friend. I fell in love with it immediately. It was the perfect size and came from a place I hoped to visit someday. I carried it everywhere in one pocket or another.

Not only was the wallet beautiful, it also had a personality: it loved to run away, as I told my parents over and over again, only to receive eye rolls in return. “Mike, really, you’ve lost it again?” They would say that every time I misplaced it.

I seem to have a habit of losing things—jackets, water bottles, textbooks, even shoes. And every time I reported a loss, my parents would have a hard time believing it. Often was I left to search and pray for the items to come back.

I lost the wallet almost weekly. Fortunately the most common place for me to lose it was in my own house, so I would eventually find it.

One day I went to watch a football game in our city’s biggest stadium. However, as I was leaving the stadium after the game was over, the wallet once again leaped from my pocket and onto the ground. I discovered the loss only when I got home that evening and I told my parents. They refused my usual “explanations” and frankly I was also a little dubious(半信半疑的). I searched the house and prayed and prayed. Nothing. I could find it nowhere!

- 注意:1. 续写词数应为 150 左右;
2. 请按如下格式在答题卡的相应位置作答。

Around a week later, my parents received a message on their business voicemail.

Losing your wallet is one of those events that unfortunately sometimes happen.
