A Singing Competition

Last Saturday, our school organized a singing competition. It was a sunny day which was suitable for an outdoor activity. All the students and teachers in our school took part in it, which lasted for 3 hours. To our excitement, there were 40 participants competing with each other, including 6 teachers. It was our headmaster who presented the awards to the winners.

Through this competition, not only did we gain the courage but also we learned how to take chances and gain confidence. We all think it meaningful and necessary to hold such an activity.

参考范文:

The trip has provided the children with unforgettable visual experiences. They have gone to over ten countries. During the trip, what impressed them most was the experience in China. The Great Wall was so amazing that they were totally attracted by it. There are beautiful places everywhere in the world, so it doesn't really matter where they go. And they never know what's going to impress them. They will tell themselves something is wonderful and keep it in mind that it's the best thing in their life.

Lemay says, "Traveling is something you can learn from." It's nice and fun, but it also can be really hard. You can be uncomfortable. You can be tired. There's frustration. So there's a lot that you can learn from travel itself. No matter how hard their life is going to be, from the experience, they can feel that they are lucky just to have running water in their home and to be able to go to school every day with nice colorful books. No matter what they may experience in their later life, the trip will shine a light in their mind.
