## Let's Take Part in Labor Activities

I am more than honored to deliver a speech titled "Let's Take Part in Labor Activities".

Labor benefits us students mentally and physically. Last Friday, a thorough cleaning on campus deepened my understanding of it. On that day, some swept the floor, some cleaned the windows, while others weeded the gardens or picked up the rubbish. Meanwhile, I volunteered to wipe the shelves and sort out the books in the school library. Seeing the tidy classrooms and clean campus, we had a sense of fulfillment and pride.

Through labor, not only have we learned the value of self-discipline and cooperation, but we have cultivated our characters and become determined individuals.
