My dream Job

Good morning, everyone. I feel it an honor to address a speech titled "My dream job".

Of the wide range of jobs around us, I will choose to be a teacher. My mother accounts for my choice first. Her commitment to teaching and happiness of being a teacher motivate me. Additionally, it is the inquisitive faces from my future students that reinforce my idea. At last, I am eager to make a difference to those for whom education is their only ticket to success.

No only will I spare no effort to learn my lessons, but I will also develop some qualities required to be a good teacher. Thank you!
